Dr. Tutwiler

Letter From The Headmaster

Dear Class of 2014,

It might seem odd, but I haven't had the pleasure of getting to know many of you as well as I would have liked. Further, being new to the community, I did not have the pleasure of watching you develop into the incredibly talented group you presented yourselves to be this year. And now, as you read this message, you will call Brighton High School your alma mater. How time flies.

Accordingly, as you depart the halls of the castle on the hill, I encourage you to continue to grow - experience all that the world has to offer. As Mark Twain reminds us, "Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do... Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover." Time will fly as you go forth and experience the world. My advice: take it slowly, enjoy and appreciate every minute, and do what makes you happy.

This is usually the point at which one wishes luck upon the graduating class. Based on my observation of you during this year, you do not need luck. Thus, Class of 2014, I wish you well.

With Love,
Dr. Tutwiler

Mrs. Judges

Mr. Prieto

Assistant Headmasters

Dear Members of the Graduating Class of 2014,

It has been a privilege to work with so many members of the Class of 2014. I have witnessed considerable growth and enjoyed watching you mature into young adults. Over the past four years you have accomplished many goals both personally and academically. I applaud your achievements and encourage you to continue your education and professional growth. You have worked hard throughout high school and will need to continue being committed to accomplish your individual goals. I hope you find satisfaction and motivation in your achievements and continue to work to your full potential. I hope that you are leaving Brighton High School with fond memories and will remember to keep in touch with your peers and the faculty. Congratulations to each of you! It has been a pleasure to work with you.

Always,

Mrs. Judges
Assistant Headmaster

Dear 2014 Graduate Class

Years will continue to go by, and every day is a day that you have to say to yourself "did I do everything in my power to be the best that I can be". The best advice I can give the class of 2014 is: don't live with regrets. Don't allow life to pass you by and then say that you wish you have done things differently. You are young now! Now is the time to do what's right for you, your family and your community. Congratulations to the class of 2014 and may your future be a bright and successful one!

Mr.Prieto

IN MEMORIAM
JOHN X. DOHERTY

The Brighton High School Senior Class of 2014 is proud to dedicate its yearbook to John X. Doherty, a former math teacher, Mathematics Department Head, and Math Coach at Brighton High School. As a devoted BHS teacher for 45 years, John dedicated his life to the students of Brighton High School. Through his brilliance, tireless effort and a passion for excellence, John Doherty brought generations of students through the complexity of mathematics, many to careers in engineering, technology, and medicine.

Mr. Doherty loved and appreciated excellence in the classroom. He was grateful for his own education as a graduate of Roxbury Latin School, Harvard University, and Brown University. Although he achieved excellence in the classroom, he was most proud of the achievement of his students, who excelled in his A.P. Calculus class and as members of the Math Team, who were Boston City champions for many years.

After formally "retiring", John Doherty continued to come into Brighton High every day, for seven years, volunteering his time to help with the scheduling of students and insuring that those who excelled were recognized each term for their academic achievements. He had a wonderful sense of humor, and was a true sports fan, never missing a game of either the Boston Red Sox or the New England Patriots. Naturally, he knew the statistics of every player!

John Doherty's legacy will live on for many years in the goals and ambitions of the thousands of students who learned mathematics from a brilliant man whose integrity, devotion, and discipline were an inspiration to everyone who knew him.

There are certain teachers who raise one school above others. John Doherty was one of these teachers. Following his death this past January, John Doherty's family has established a scholarship in his honor. It will be given each year to a student who has excelled in mathematics. The first recipient will be a member of the class of 2014
